

## Bachelor of Science in Recreation & Sport Management\*

### Program Overview:

The Bachelor of Science in Recreation and Sport Management offers three tracks: Recreation and Sport Management, Parks Management, and Recreational Therapy. The Recreational Therapy track prepares individuals for a profession which is instrumental to improving and maintaining physical, cognitive, emotional, and social functioning, preventing secondary health conditions, enhancing independent living skills and overall quality of life. The Recreation & Sport Management Track is oriented towards direct services, supervisory, and management employment opportunities in the sports and recreation field. The Parks Management track provides students with the tools needed to manage and develop programs for a parks department.
