

# Cognitive Neuroscience Graduate Student Timeline

## YEAR 1

### Fall

- (1) Quantitative Methods I (3 credits)
- (2) Cognitive Neuroscience Content Course or Elective (3 credits)
- (3) Cognitive Neuroscience Content Course or Elective (3 credits)

### Summer

- (1) Supervised Research (6 credits)
- \*Defend Master's Project Proposal

### Spring

- (1) Quantitative Methods II (3 credits)
- (2) Cognitive Neuroscience Content Course or Elective (3 credits)
- (3) Cognitive Neuroscience Content Course or Elective (3 credits)

## YEAR 2

### Fall

- (1) Multivariate Statistics (3 credits)
- (2) Cognitive Neuroscience Content Course or Elective (3 credits)
- (3) Cognitive Neuroscience Content Course or Elective (3 credits)

### Summer

- (1) Supervised Research (6 credits)
- \*Complete Master's Thesis Project – submission of paper to committee and/or journal

### Spring

- (1) Cognitive Neuroscience Content Course or Elective (3 credits)
- (2) Cognitive Neuroscience Content Course or Elective (3 credits)
- (3) Cognitive Neuroscience Content Course or Elective (3 credits)

## YEAR 3

### Fall

- (1) Supervised Research (9 credits)
- \* Complete Qualifying Paper

### Summer

- (1) Supervised Research (6 credits)
- \*Defend Dissertation Proposal

### Spring

- (1) Supervised Research (9 credits)

## YEAR 4

### Fall

- (1) PSY 7980 Ph.D. Dissertation (6 credits)

### Summer

- (1) PSY 7980 Ph.D. Dissertation (3 or remaining credits)
- \*Defend Dissertation

### Spring

- (1) PSY 7980 Ph.D. Dissertation (6 credits)
